## COMMUNICATION

Commissioner for Patents:

In reply to the July 9, 2002, Decision Granting Petition under 37 C.F.R. § 1.53(e) (copy enclosed), Applicants provide herewith a substitute specification containing consecutively numbered pages. Also provided is a request for a one month extension of time under 37 C.F.R. § 1.136(a), making the extended deadline for providing this substitute specification October 9, 2002. The enclosed substitute specification is, to the best of my knowledge, and with the exception of the inserted page numbers, identical in content to the paper copy of the application originally filed on December 5, 2001. Please note that by inserting page numbers and reprinting the application, while content is identical, the absolute number of pages has changed from 128 pages to 132 pages.

The Decision Granting Petition also notes that Applicants were required to file a basic filing fee, additional claims fees and an oath or declaration, along with an extension of time under 37 C.F.R. § 1.136(a), prior to a final deadline of August 11, 2002, *i.e.*, seven months from mailing of the Notice of Incomplete Nonprovisional Application. Applicants respectfully submit, however, that such requirements have already been satisfied by Applicants. First, regarding the declaration, pursuant to 37 C.F.R. § 1.63(d)(1)(iv), Applicants respectfully submit that a copy of the declaration as filed in the parent application may be submitted with a

continuation or, as in this case, a divisional application. A copy of the declaration from the parent application was timely filed with the subject application on December 5, 2001, as evidenced by the itemized postcard receipt mailed to Applicants by the P.T.O. (copy enclosed). For the convenience of the Examiner, however, an additional copy of the declaration is submitted herewith, and, as requested, the serial number of the present application is now specifically referenced by the declaration.

Applicants further submit that the filing fee requirement set forth in the Notice of Incomplete Nonprovisional Application has also been satisfied. In the fee transmittal form (PTO/SB/17) associated with Applicant's communication dated March 11, 2002 (copy enclosed), Applicants specifically authorized the Commissioner to deduct fees under 37 C.F.R. § 1.16 from Deposit Account Number 19-1090. Applicants note that filing fee requirements are specifically encompassed by 37 C.F.R. § 1.16, and, accordingly, the basic filing fee requirement of \$740 and the additional claim fees of \$280 should have been properly withdrawn from the referenced Deposit Account.

Examination of the subject application on the merits is earnestly requested. The Examiner is invited to contact the undersigned at (206) 622-4900, with any questions or comments concerning the above communication.

Respectfully submitted,

Jiangchun Xu et al.

OFFICE OF PETITIONS

In re Application of  
Xu, et al.  
Application No. 10/010,940  
Filed: December 5, 2001  
Attorney Docket No. 210121.427D3DECISION GRANTING  
PETITION

Submit a Substitute Spec.

Sep 9, 2002  
ENTERED IN DOCKET

This is a decision on the petition under 37 CFR 1.53(e), filed March 11, 2002, requesting that the above-identified application be accorded a December 5, 2001 filing date.

The application was deposited on December 5, 2001. On January 11, 2002, the Office of Initial Patent Examination mailed a Notice informing petitioners that the specification and drawings were omitted and as such, no filing date had been accorded to the application.

In response to the Notice, petitioners timely filed the present petition on March 11, 2002. Petitioners request a filing date of December 5, 2001 on the basis that the entire specification, was received in the Patent and Trademark Office (PTO) on March 11, 2002.<sup>1</sup> In support, the petition is accompanied by a copy of applicants' itemized postcard receipt showing an Office of Initial Patent Examination generated barcode citing December 5, 2001 as the date of receipt. The postcard lists, *inter alia*, that the filing included 128 pages of specification and 12 pages of drawings.

The return postcard constitutes *prima facie* evidence that 128 pages of specification and 12 pages of drawings were filed on December 5, 2001. Accordingly, the request is granted.

A review of the copy of the original specification submitted with the instant petition reveals that 128 pages are present, though not numbered. Because the whole specification was missing, the postcard receipt showing 128 pages were received by the Office on December 5, 2001 is sufficient evidence to justify the accordation of a December 5, 2001 filing date to the 128 pages submitted with the instant petition. Had only a few pages been missing from the original filing, this analysis would have been more complicated and the outcome possibly different. It would have been difficult to ascertain which pages were actually missing from the remaining non-numbered pages found in the application file.

Petitioners are reminded that 37 CFR 1.52(a)(5) requires that the pages of the specification be numbered consecutively, starting with 1, the numbers being centrally located above or preferably, below the text. Petitioners are required to submit a substitute specification with pages consecutively numbered within 2 months of the mail date of this decision. Extensions of time are available under 37 CFR 1.136(a).

<sup>1</sup> The petition does not specifically address the fact that drawings were missing. However, Petitions Attorney Willis has addressed the issue of omitted drawings in this decision.

CORIXA 7-23-02  
GSK

Pursuant to petitioners' authorization, deposit account no. 19-1090 will be refunded the \$130.00 petition fee.

Petitioners are reminded that the requirements that petitioners submit the basic filing fee, additional claim fees, an oath or declaration, and a surcharge for their late filing are still outstanding. Petitioners must buy an extension of time pursuant to 37 CFR 1.136(a) to file these items prior to the last possible date for reply, or August 11, 2002.

The application is being returned to Office of Initial Patent Examination for further processing, with a filing date of December 5, 2001, using the 12 pages of drawings filed with the instant petition, and to await receipt of a substitute specification with numbered pages.

Any inquiries pertaining to this matter may be directed to Petitions Attorney E. Shirene Willis at (703) 308-6712.
